

VTC Job Opening (Charleston, SC) **Job#: 061615-03**

Date: June 16, 2015

Location: Charleston, SC

Security Clearance: Secret

Clearance Status: Must be Current

Schedule: Full Time

Type of Travel: Occasional Travel within/outside the Continental US

Percent of Travel Required: Approximately 50%

Description:

This is an existing opportunity to support U.S. Government Agencies located in Charleston, South Carolina, with secondary (temporary) support to multiple locations throughout the United States, Hawaii and the PAC Rim. This job is currently available.

Must have a current US Secret security clearance.

Video Teleconference (VTC) / Audio-Visual (A/V) Support Services

Responsibilities:

Schedule, facilitate, operate, and maintain VTC equipment and systems; provide design and installation advice and technical support.

- Coordinate, schedule and provide technical assistance to requesting units requiring secure or non-secure VTC services.
- Provide design, installation advice, and technical support for VTC.
- Install, configure, operate, and maintain A/V systems.
- Coordinate with appropriate internal and external agencies to schedule and establish requested A/V usage.
- Prepare and test A/V system functionality prior to scheduled A/V usage.
- Perform fault analysis and diagnostics on A/V systems.
- Provide technical support for A/V equipment at U. S. Government Agencies located in Omaha Nebraska. Support includes performing preventive maintenance of equipment, troubleshooting and resolution of operational issues, and development and coordination of upgrade plans to A/V systems.

Qualifications:

5 to 7 years' experience designing, engineering, implementing and managing Enterprise VTC solutions supporting secured and unsecured services in a DISN environment, to include experience with:

- VTC infrastructure system (e.g., bridging, call control, firewall traversal, endpoint management systems, and classification switching)
- Ability to configure, test, and administer installed VTC solutions (e.g., bandwidth control, network security, and call routing)
- Audio/Video Integration (e.g., installation, configuration, and test A/V solutions)

- Video conference hosting (e.g., schedule, participant coordination, and connection information dissemination)
- Experience with A/V systems, to include utilization, functionality, and technical support.

Certification Desired but not Required:

- DISN Video Services (DVS)
- AMX Certified Expert (ACE)
- CompTIA Security+

Education & Experience:

Requires 5 to 7 years of related experience.

Physical Demands:

Normal demands associated with an office environment. Ability to work on computer and communicate with individuals by telephone, email and face to face. Minimal travel may be required.

Company Description:
